

Assistant Village Engineer

The Village of Grafton is excited to accept applications for the newly created position of Assistant Village Engineer. This engineering position will play a vital role in all engineering projects for the Village of Grafton from design, survey, and construction oversight of all Village infrastructure (water, sanitary sewer, storm sewer, roadway, sidewalks & pathways, bridges, street lighting & signals) to DNR stormwater permit compliance, plan review and project management of private development projects, specification updates, and much more. Full job description details and job application can be found on the Village's website: www.village.grafton.wi.us/jobs. A flexible work schedule based on time of year is offered, providing for a good work/life balance.

The Village of Grafton offers a great benefits package including low deductible health insurance, paid time off, paid holidays, life insurance, wellness programs, mental health support, cellphone and tuition reimbursement, and participation in the Wisconsin Retirement System which is among the best funded and best managed public pension systems in the country. Numerous personal development opportunities are provided for career growth. The starting salary is \$77,000 - \$96,000 depending on qualifications, with future growth opportunities up to \$110,000. Final candidate should anticipate a background check, physical exam, and drug test.

All applicants must provide a cover letter, resume, and complete a Village of Grafton job application and return to Human Resources at hr@village.grafton.wi.us, or 860 Badger Circle, Grafton, WI 53024.

This position will give you the opportunity to make a positive impact on the Grafton community, apply today to be the first Assistant Village Engineer!

The position is open until filled.

The Village of Grafton is an equal opportunity employer.
