

American Society of Civil Engineers SE Branch Scholarship Golf Tournament

Sponsored by your Geopier® Technology team.

Friday, June 9, 2017

Ironwood Golf Course
W270 N6166 Moraine Drive
Sussex, WI

On behalf of the Southeast Branch of the Wisconsin Section of the American Society of Civil Engineers (ASCE), we would like to invite you and your firm to participate in the ASCE Southeast Branch Scholarship Golf Tournament. Each year, the Southeast Branch provides scholarships to deserving civil engineering students from Marquette University, the Milwaukee School of Engineering (MSOE), and the University of Wisconsin - Milwaukee (UWM). Selected from dozens of applicants, one student from each of the three schools is honored with a \$2,500 scholarship. Due to the success of our fund raising efforts, this year we were able to award a fourth \$2,500 scholarship.

The Southeast Branch is asking for your support in helping to continue this valuable tradition and building off the success of last year's golf tournament where **over \$10,000** was raised. We are looking forward to the continued support of engineering companies, contractors and others involved in the local engineering community in the form of sponsorships for the golf tournament. There are numerous opportunities for your firm to help out. Proceeds from the golf tournament will go to support the ASCE Wisconsin Section Southeast Branch Scholarship Fund. **THIS IS A DOUBLE SPONSORSHIP OPPORTUNITY, AS ALL SPONSORS FOR THE GOLF OUTING WILL ALSO RECEIVE RECOGNITION AT THE 2017 SCHOLARSHIP DINNER.**

If you have interest in providing sponsors or donations, please contact us as soon as possible. Early sponsorship allows us to include you in upcoming event brochures and marketing.

On behalf of the Wisconsin Section of ASCE, we would like to thank you in advance for your generous support.

-ASCE Golf Outing Committee

American Society of Civil Engineers

Founded in 1852, the American Society of Civil Engineers represents more than 139,000 civil engineers worldwide and is America's oldest national engineering society.

Mission - To provide essential value to our members, their careers, our partners and the public by developing leadership, advancing technology, advocating lifelong learning, and promoting the profession.

Reaching out as a society - When disaster strikes, ASCE is there to help. ASCE sends technical expertise and resources around the world to assist rebuilding civilization after the devastation caused by tsunamis, hurricanes, earthquakes and more.

This year has also brought about the latest edition of Report Card for America's Infrastructure <http://www.infrastructurereportcard.org/>. The Report Card grades the current condition of 16 infrastructures areas vital to the America's everyday life. This report shows many of the infrastructures are in very poor condition.

Reaching out in Wisconsin -ASCE members throughout the state are very active in outreach programs and community service projects. Some of these programs and projects include classroom visits to first graders thru high schoolers to promote learning and engineering, Habitat-for-Humanity, Adopt-A-Highway, Honey Creek Clean-up, and bell ringing for the Salvation Army to name a few.

SPONSORSHIP PACKAGES

All packages include:

- Acknowledgement in all golf outing marketing, program and during the awards ceremony

Event Title Sponsors
