

Structural and Municipal Divisions – Job Openings

Ranked #2 as a Top Workplace, raSmith is a multi-disciplinary consulting civil and structural engineering and land surveying firm. We work on projects nationwide from our seven locations in Wisconsin, Illinois and California.

At raSmith, our culture is focused on client service, quality and innovation. We strongly believe in work/life balance and employee development. These attributes and our people-oriented environment have led us to receive numerous project and culture awards.

We have several position openings in our Structural and Municipal Services Divisions.

raSmith's structural engineers provide design solutions to the private and public sectors for new, rehabilitated and retrofitted bridge and building structures. Well known for our work in Wisconsin, our staff is licensed throughout the U.S. and has completed hundreds of projects nationwide.

Structural positions include:

Structural Engineer – Buildings – 8 – 10 years' experience - Brookfield, WI: The Structural Engineer will perform structural design of various building projects including development of design documents, calculations, specifications, and construction administration.

Structural Engineering Project Manager - Buildings – Brookfield, WI: The Structural Engineering Project Manager will serve as project manager on structural building projects, manage project budgets, and perform and lead the structural design of various building projects.

Structural Engineering Group Leader – Buildings – Brookfield, WI: The Structural Engineering Group Leader will lead, mentor, develop, and grow the Structural Buildings Group, organize and manage structural design efforts for multiple simultaneous projects, and review and design structural systems for a variety of K-12, healthcare, commercial, retail, multi-family residential, industrial and institutional buildings.

Municipal Division:

raSmith's Municipal Division serves as the engineer of record for many villages, towns, counties and utilities. On a daily basis, we offer creative solutions to communities as they work to both maintain and improve their transportation system, structures, water and wastewater systems, parks and open spaces, and public safety facilities.

Municipal positions include:

Project Manager – Municipal Civil Engineering – Brookfield or Cedarburg: The Municipal Project Manager will assist with client work in their specific market. The successful candidate will identify, initiate, develop, maintain and manage a portfolio of public works projects and municipal clients.
